Software Engineering Student
University of Calgary

To: City of Calgary

Dear Recruiter,

I'm writing to you to express my interest in the System Analyst position with the City of Calgary. I have lived in Calgary for over a decade and have had a desire to work for this amazing city since I moved here.

Currently I'm a third year student at the University of Calgary working to become a Software Engineer major. My expected graduation is December 2026. I'm eager to improve my automated application abilities by helping create and maintain a high-level product for your company. I have always had a strong desire to find the most efficient approach to a problem by thoroughly analysing each outcome. I believe your company values this passion for your work and these characteristics in a worker. Having the privilege of serving as a co-op student would mutually bring value to your company and my growth as an individual looking to strengthen their skills. This opportunity would fulfill my dream of working for the City of Calgary to optimize their programs and AI to create meaningful analysis for their businesses. After graduation I hope to work for the City of Calgary to create meaningful applications and enhance existing projects to aid the development of this city and improve it for future generations as it was improved for me.

During my studies at the University of Calgary and Universidad Carlos III Madrid, I have had the opportunity to learn about coding in C, C++, Java and Python, focusing on modular, object-oriented programming to ensure quality in applications. Alongside these skills, I have also developed my database skills to a high level, mainly focusing on SQL using MySQL and developing large scale scripts for functioning databases in applications. My most recent project is a movie theatre application with a functioning GUI and a database which simulates the process of buying a movie ticket to watch a film in theatres. This project was planned and presented using Microsoft Office tools like Excel and PowerPoint. I believe this knowledge and passion could be of interest to you as you are looking to grow your team with motivated workers.

I would like the opportunity to meet with you to discuss this role. Please let me know if you have any questions. You can reach me by phone at 825-454-8636 or email at gerardo.gdl04@gmail.com.

Thank you for your consideration.

Sincerely,
Gerardo Garcia de Leon
